

Complete and balanced to meet the nutritional levels established by **AAFCO** dog and cat nutrient profiles for all life stages

Formulations are reviewed by a **PhD in animal nutrition**

Nutritional profiles for all pet foods can be found on our website, [StevesRealFood.com](https://www.StevesRealFood.com), by navigating to the individual product pages.

Raw pet food is manufactured under **USDA and HACCP standards**, with regular inspections by the Oregon Department of Agriculture and FDA.

Employ High-Pressure Processing (HPP) to eliminate harmful pathogens such as salmonella, e-coli, and listeria to achieve a **5-log bacteria reduction**.

All products undergo pathogen testing, and foods are held until test results are cleared before they are sold to the public.

Committed to Raw Food Safety, Backed by over 25 Years of Experience

USA manufacturer of commercially prepared complete and balanced raw pet food since 1998

Partners in Pet Health

We've recently launched a Veterinary and Wellness Partner program for health professionals who support or are open to learning more about the benefits of feeding a fresh-food diet.

We realize raw pet food is a small percentage of commercially prepared pet food diets, and as a trusted health provider for this pet, we would like to provide you with any information to help you evaluate our raw diets for dogs and cats.
